

EliteVue

Fibre Optic Macro Otoscope

The **EliteVue** otoscope is setting the standards.

The **EliteVue** offers twice the field of view and 66% greater magnification compared to standard otoscopes*.

The **EliteVue** offers a significantly improved view of the auditory canal and tympanic membrane, enabling more efficient diagnosis and enhanced patient outcomes. Suitable for throat illumination.

- › High-performance LED illumination (4000 Kelvin, CRI = 92)
- › More than 5-fold magnification
- › Twice the field of view
- › Complete view of the tympanic membrane
- › Reflection-optimized high performance glass optics
- › Wheel to adjust focal depth
- › Easy to operate SpecEjec specula ejection device at the rear side of the otoscope to avoid contamination
- › Suitable for pneumatic otoscopy (supplied without ball)
- › A wide range of power supply options: as part of a diagnostic station, battery operated or with a rechargeable handle.

EliteVue is compatible with **ri-scope® L** handles and power sources as well as the **ri-former** wall diagnostic station.

Technical Data

	EliteVue	ri-scope® L
Field of view, Ø *	11 mm (0.43 in)	5.5 mm (0.21 in)
Magnification	5x	3x

* at a distance of 15 mm (0.59 in) between landmark and distal tip of the specula.
